WORK EXPERIENCE

TECHNICAL MANAGER
VERISIGN INC

2018 - Present

Management of the Corporate Web Development Team, operating high visibility web properties essential to marketing and strategic communication initiatives.

- Responsible for DevOps team of 5 direct reports
- Process improvements led to 76% decrease in production defects over two years
- Transitioned all projects to use common tooling and architecture
- Successful rebuild of the primary corporate website and foundational components
- Integrated GitHub-based CMS to empower business owners to update content

WEB DEVELOPER LEVEL IV
VERISIGN INC

2014 - 2018

Lead Front End Developer for Verisign public web properties, including the primary corporate website and associated microsites as well as web application products.

- Closely collaborated with Design, Requirements, and stakeholder teams
- Front end lead for NameStudio product, a domain name generation tool
- Development lead for DNS Firewall product, including lightweight framework to manage application state
- Primary developer for the #InternetOfficial marketing campaign

DATABASE APPLICATION DEVELOPER
APPSENTIAL LLC

2010 - 2014

Application and data visualization development as a contractor for the U.S. Department of Energy's iManage program.

- Development of database applications using Oracle Application Express
- Creation of reports, dashboards, and data visualizations using OBIEE
- Served as OBIEE Admin, managing security groups and the creation of new data sources and views
- Integration of new visualization libraries into OBIEE report views

FEDERAL INTERNSHIP
U.S. DEPT. OF HOMELAND SECURITY

2008 - 2010

Internship with the Acquisitions and Program Management Branch of the US-VISIT program.

- Development of a task management application in Visual Basic for Excel which included the programmatic generation of a data visualization dashboard
- Collaboration with Budgeting Office to iteratively improve the application, resulting in full adoption within their standard reporting process
- Federal background check and Suitability Clearance

ASSISTANT STORE MANAGER
ADVANCE AUTO PARTS

2005 - 2008

A formational experience which taught me how to align a team to common goals and invest in a mission, while balancing working towards my degree at the same time.

- Shift Manager for a large store with 12 staff, a delivery service, and \$1 million inventory
- Streamlined customer experience through checkout process improvement
- Instituted contests for employees to motivate and reward goal attainment
- Served as interim Store Manager for three months during which the store surpassed all sales and cost goals
